Complete Glazing Systems

ODL
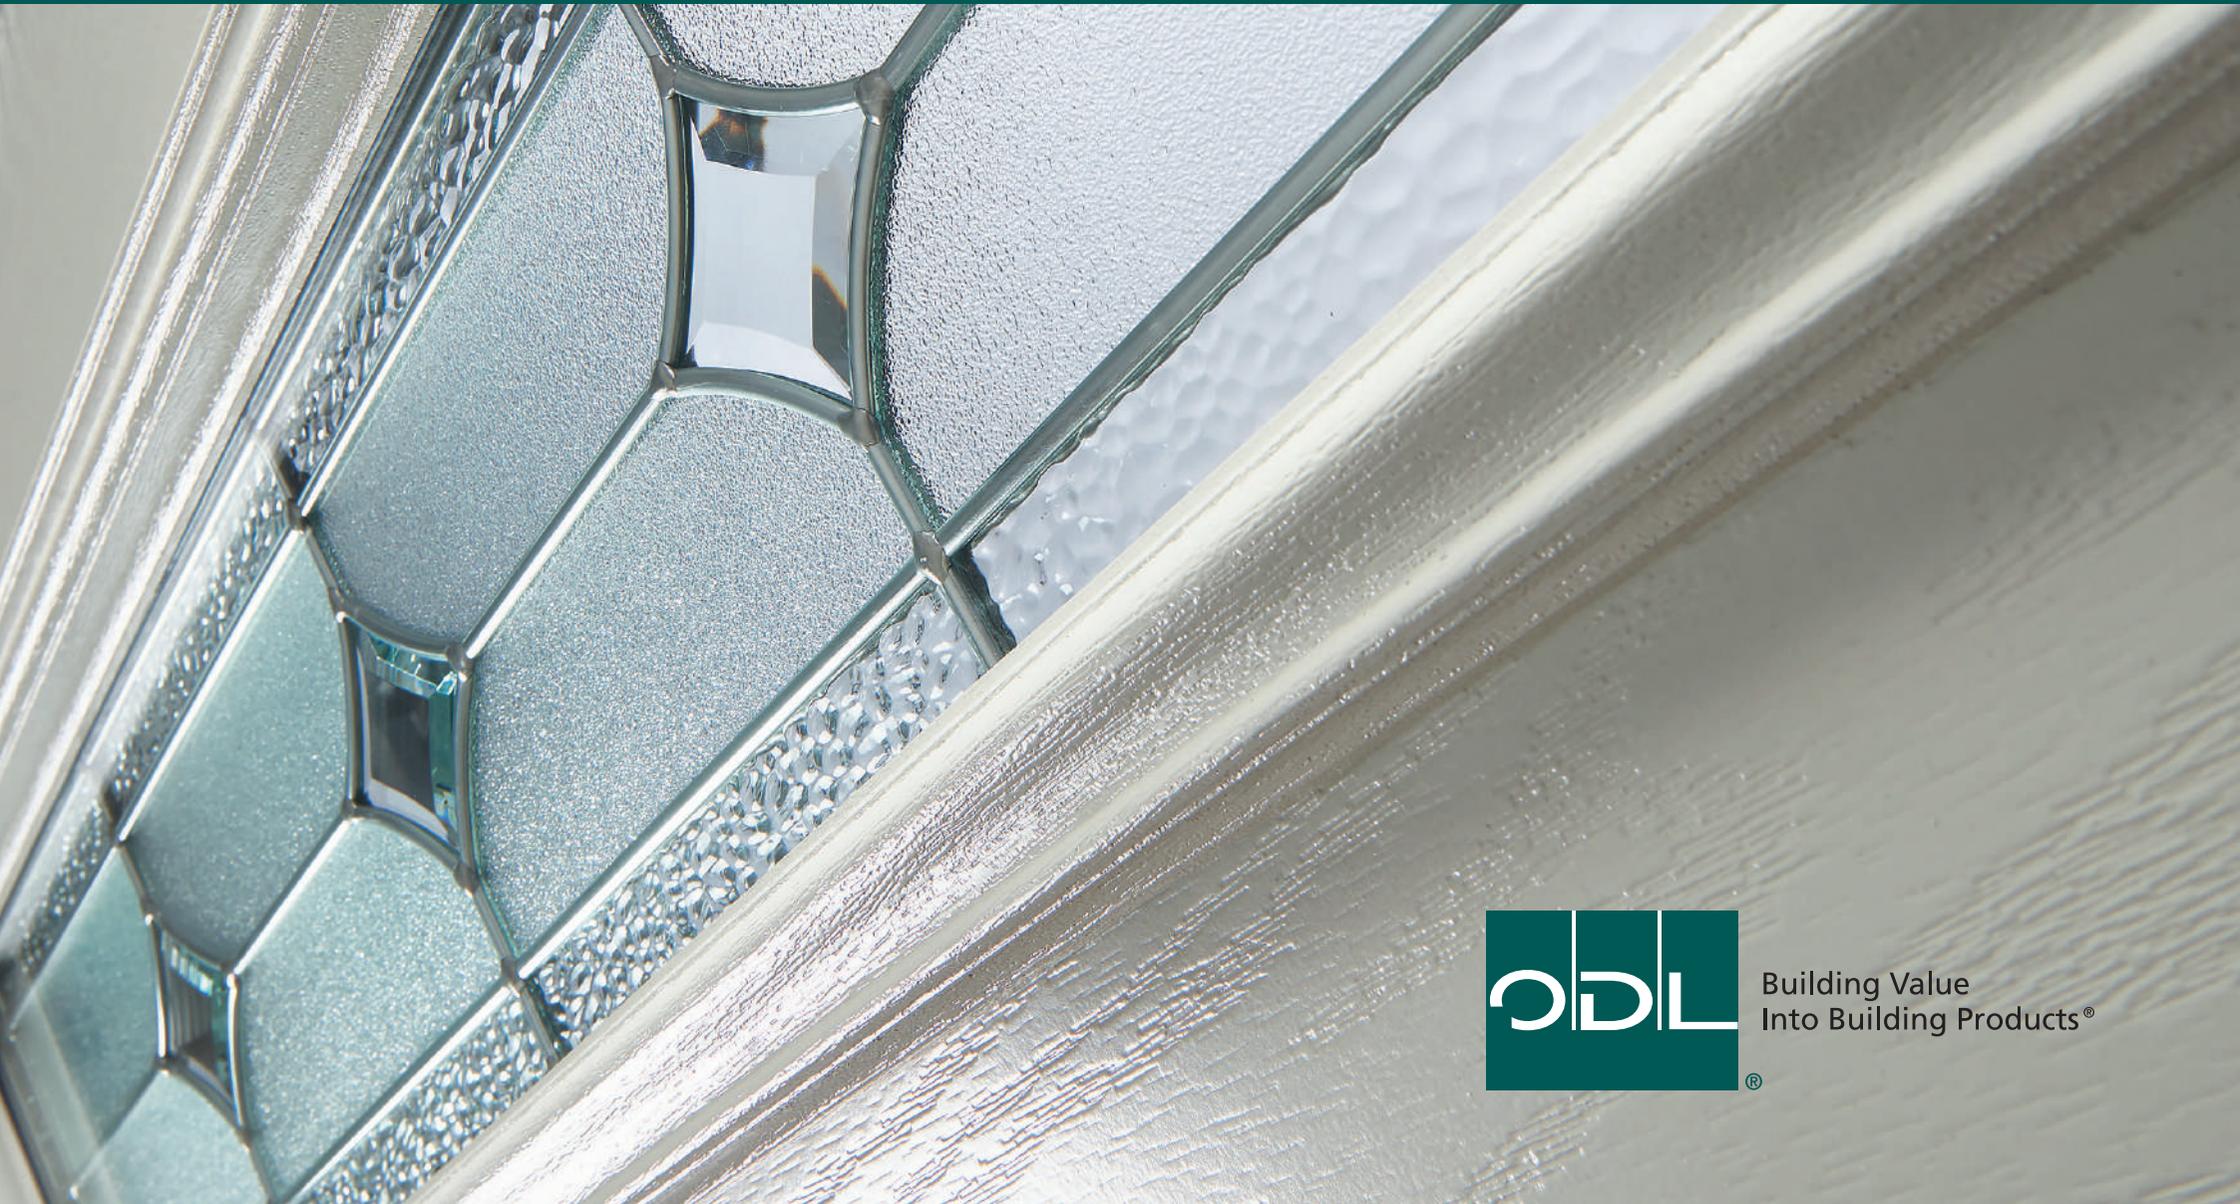

Building Value
Into Building Products®

ODL Europe offers the widest selection of glazing frame systems in the industry, supplying to a growing network of manufacturing partners throughout the UK. Based in Bootle, Liverpool, **ODL Europe are part of the global ODL corporate business whose roots stretch back over 75 years** and continue to support our commitment to product and service excellence.

Over the years ODL has become a global leader in the supply of value-added products for the door industry. ODL now operates globally in the USA, China, Mexico, Canada and here in the UK since 2004.

ODL Europe's glazing frame systems offer the best in the industry. This allows our customers to install with confidence in the knowledge they are fitting superior designed glazing cassettes with high-performing qualities.

Our glazing frames are all highly-engineered for quick installation and are suitable for a variety of door applications. All glazing frames are manufactured from high-performance resin, reducing the need for long-term maintenance and delivering exceptional product excellence every time.

A Proven Pedigree

At ODL Europe, we **build value into building products** and **raise the bar on quality and performance.**

TriSYS™ Frame System

The unique TriSYS™ three-piece frame system, designed and exclusively manufactured by ODL Europe and supplied throughout the UK and Europe, is the market leading composite door glazing system.

- The outer frame and inner cassette simply screw together to hold the door glass into place.

- The inner frame then simply snaps on.

- The innovative clip system eliminates screw hole covers, giving a more attractive finish.

- No preparation, no adhesion promoter and no special primers.

- Suitable for use with dark finishes without risk of deformation.

- The material used in the construction reduces warping in high heat areas and eliminates leaking and improves weather fastness.

- Easy-to-use.

- Available in White, Red, Green, Blue, Black, Grey, Chartwell Green, Oak and Rosewood.

- Has achieved PAS24:2016 and Secured by Design requirements.

- Choice of five door glass sizes.

- Textured grain based on authentic maple and birch tree grains.

- Moulded and textured formulation works equally well for painting or staining.

- Resists both warping and deformation from heat build-up.

- The compression foam tape seal construction eliminates the difficulties associated with wet caulk products.

- Seated screw-hole plugs allow for easy alignment and match the frame's grain direction for an improved aesthetic finish.

- Has achieved PAS24:2016 and Secured by Design requirements.

Spotlights™

ZEEL™ – Reframing Innovation and Design

ZEEL™ is a sleek, versatile contemporary glazing frame that blends seamlessly into the door allowing the door glass to take centre stage. It's the next generation of glazing frames.

For example: If you want an 2217 ZEEL™ Frame set – you would need to order: **ZEE2217SET**

Easy to identify coding system: For example, Frame Code 2217 = 22" x 17" glass size.

- Innovative new flush finish design.

- Intelligently-designed clip system that eliminates the need for unsightly screws and reduces installation time.

- The use of Resolve® sealant, a clean thermoset foam seal, to achieve high-quality applications and long-term performance.

- Features ODL's proprietary PC/ABS blend for increased durability.

- Comes untreated so it can be stained or painted in any RAL colour.

- Constructed from FiberMate Plus™, developed cassette material for increased durability and reduce water egress.

- Meets PAS24:2016 and Secure by Design requirements.

ZEEL™

The clean, low profile aesthetics offer an alternative to flush-glazed doors that deliver the benefits of a frame system with popular contemporary styling.

The Craftsman Framing System

The Craftsman framing system is designed with architectural style in mind. The broad flat-profile frame is designed to blend perfectly with the finishing details of the door for a superior finish. The Craftsman High Performance (HP®) cassette was developed for customers who do now want to paint or stain the frame and is acceptable for use in moderate heat areas.
